FEBRUARY MEETING OF NORTH GRIMSBY COUNCIL

W. C. T. Bromley Re-appointed Water Works Superintendent — William Neilson, New Water Account Collector — Deputation From Grimsby Beach Cottagers' Assn. Appears Before Council Regarding Water Rates — No Action on Request That By-law Be Passed Requiring Milk Sold in Township Be Pasteurized.

The February meeting of the North Grimsby Township Council held on Saturday afternoon proved a busy session, the business transacted including the appointment of a waterworks superintendent and water accounts collector, two deputations also appearing before the council.

Mr. James Armstrong presented a claim for \$25.72 to the council for damage to his motor car which occurred through an accident while he was using the Woolverton Mountain road recently.

It was stated by council members that warning signs had been erected at the top and bottom of this road as the tendency is for it to become icy in the winter time, making the steep grade difficult for traffic.

The claim will be referred to the insurance company.

A deputation from the Grimsby Beach Cottagers' Association comprising Messrs. Pearson and Harold, appeared before the council with reference to securing an adjustment in connection with a claim that the users of water at the Beach had been paying a higher rate for water than other users throughout the township. A motion passed by the township council in 1923 when a rate of 22 cents per thousand gallons was fixed was referred to. It was stated that the Beach users had been paying a higher rate covering a period from 1924 to 1932

inclusive, paying as high as 48 cents a thousand gallons.

The matter, it was pointed out, had been discussed from time to time and in 1932 a flat rate of \$5.00 had been fixed. The representatives of the association suggested that this rate be continued for another three years as compensation to some extent for amount which it was claimed had been paid in excess of the amount paid by other water users in the township. It was claimed that the surplus accumulated had been made possible by the higher rate charged the Beach users and they should therefore receive consideration.

It was pointed out by Councillor Durham that the main which conveys the water to the Beach had not cost Beach water users anything, while Councillor Crittenden cited various expenditures for collecting, fire protection, etc., borne by the township in connection with the service being given the Beach water users.

Councillor Durham suggested that water used by the Cottagers' Association be metered, that they maintain their own system and appoint their own collector but the representatives of the association said it was not equipped to do so.

Reeve Lawson said that neither the Cottagers' Association nor the Council was at fault in the matter. (Continued on page 5)

Our Mayor Went To Ottawa To See The King, Our Reeve Went To Ottawa To See The King

All they saw was snow banks and the brilliancy of the Robbins - Forbes wedding. They gazed upon the white horses topped with scarlet rosettes and the plains in the persons of Royal North West Mounted Police.

A cop on the corner tells me that Mayor MacPherson stood in forty below zero weather with his mouth wide open drinking in all the sights and a few icicles from Hull as well. That Reeve Mogg after interviewing the office boy that stands guard at Premier Bennett's door was finally told "come back next Tuesday at half past four."

The fact still remains that our two Chief Magistrates made a visit to the Capital and came back whole, and in

the course of their peripatations they made a lot of friendships that in the course of time may be of a lot of good to Grimsby.

I understand that the two vote grabbing office holders had a very successful interview with a Minister of the government that means something, so I guess that's something.

Anyway, anyhow, notwithstanding the fact still remains that Mogg and MacPherson spent thirty dollars of the town's dough and there will be plenty of squawk about that, but watch for results. One result happened on Monday morning and there is a flock of better results to follow. (J. O. L.)

Addresses I.O.D.E. On "Situation In Austria" At January Meeting

The many who attended the February meeting of the I. O. D. E. Literary were rewarded by hearing one of the finest addresses yet given at these gatherings. The meeting was in the I. O. D. E. rooms, Monday afternoon and the speaker was Miss Gwen Carter, B.A., of McMaster University. Miss Carter spoke on "The Situation in Austria," outlining the conditions before and after the Anschluss which led up to the present dictatorship. In her charming manner she gave an excellent pen picture of Herr Dolfuss, the smallest and youngest dictator in Europe. A hearty vote of thanks was extended the speaker by Mrs. Cline and Mrs. N. Merritt. A reading was given by Miss Florence Laing and the Regent, Mrs. Catton gave a paper on the life of Mrs. Clarke Murray who founded the Order on February 13, 1900. Mr. Oliver Merritt favored the meeting with two piano solos. The Regent announced the Women's Institute Tea on Feb. 13, in Trinity Hall to which all members are invited, and the annual meeting of the I. O. D. E. Bridge Club at Mrs. James Merritt's on Monday, Feb. 19, at 2:45 o'clock.

Says Peach Crop Is Not Injured At Vineland

Despite the fact that the temperature in the vicinity of Vineland fruit research station dropped to eight below zero Wednesday night, it is not anticipated by experts at the station that the peach crop will be injured, as before the sudden drop in temperature the weather was not very mild, so the trees were not forced out. If some buds are killed by the frost, this should benefit the trees, and will obviate the need for thinning the buds later.

BASKET MFRS. FORM COMPANY

Head Office In Grimsby — Organization To Be Known As Canadian Package Sales Company — Formed To Reduce Costs, Avoid Overlapping and Control Credit.

The difficult times through which the country has been passing has made it necessary for business men to thoroughly explore ways and means of reducing costs and this has prompted the organization by basket manufacturers of the province of a company which will enable them to keep down the cost of baskets to the fruit farmers and give the necessary service for the least possible outlay on the part of the grower.

After lengthy consideration and careful checking up of results of different methods to accomplish this end, it has been decided to form a central sales organization to be known as The Canadian Package Sales Company, which would enable the basket firms to cut their overhead costs to the minimum, avoid overlapping and control credit.

The company which will have its headquarters in the Village Inn, Grimsby, will comprise a large majority of the basket manufacturers of the Province of Ontario, including the three local manufacturers. It will operate under a Provincial Charter and will be prepared to function in its entirety by the first of the week.

17 BELOW ZERO HERE According to the official thermometer at Mr. J. R. Gibbs' home Saturday Feb. 10 was the coldest day that has been recorded since a government record has been kept here, it registered 17 degrees below zero. On Feb. 8th and 9th it registered 13 below.

This is the coldest register since 1925 when it was 11 below. In 1929 it again went to 11 below and in 1928 to 6 below.

About 1 o'clock Saturday the Dominion gas line going south of the Burris bridge over Pike creek, on No. 5 highway, just east of the Cayuga arena, burst and as a result all gas users in Cayuga shivered and shook while repairs were being made.

Hon. H. H. Stevens To Visit Grimsby

Business men and citizens of Grimsby will be pleased to learn that Hon. H. H. Stevens, Minister of Trade and Commerce in the Dominion Government is to come to Grimsby in the near future under the auspices of The Grimsby Business Men's Association by whom an invitation was extended recently.

Mayor McPherson and Reeve Mogg while in Ottawa a few days ago took occasion to present the invitation to Hon. Mr. Stevens in person and he said he would be pleased to accept it, the visit to be arranged at a date agreeable to Mr. Stevens.

Hon. Mr. Stevens is one of the outstanding members of the Dominion Government whose addresses within recent weeks have commanded unusual attention and his coming to this town will be looked forward to with the keenest anticipation.

Doubtless a large number will desire to attend the banquet to be arranged. It is anticipated that there will be accommodation for a limited number of others besides members of the Business Men's Association, including some of the business men of the surrounding community.

VIEWS OF FAMOUS GARDENS SHOWN

Many Enjoy Lantern Lecture by Harold Whiteside, B.S.A. on "A Ramble Through A Garden."

While gardens lie buried in snow, Grimsby flower lovers enjoyed a lantern lecture given by Harold Whiteside, B.S.A. of Grimsby, entitled, "A Ramble Through A Garden," in Trinity Hall, on Tuesday evening under the auspices of the Horticultural Society.

Mr. E. J. Muir presided at the lecture which was held under the auspices of the Grimsby Horticultural Society.

There was a splendid turnout, considering the bitterly cold night and many of the school children responded to the cordial invitation of the society to attend.

Many famous gardens were shown on slides, wonderful gardens in Holland, France, Italy, etc. (Continued on page 4)

- AWAY BACK WHEN -

By FRANK FAIRBORN, Jr.

I guess I must of felt the fear of The Big Bad Wolf into the old times last week when I published that date in regards to the Carpenter basket factory fire. I've only had one rebound from the shot and that came from "Billy" Brown - Smith, and he concurred with me as to the approximate date of this fire. Even my old pal Ken didn't have a come back. Well, here's the dope as I have it and if I am wrong why blame Mae West.

I have before me a copy of the Illustrated Section of The Saturday Globe. Remember when The Toronto Globe, always printed an illustrated section with their Saturday edition. This copy is dated Saturday, September 22nd, 1894. Most of the four page eight column sheet is taken up with a general write-up and pictures of the Niagara Fruit Belt from Stoney Creek to Beamsville and contains therein a picture of the Carpenter Basket factory and a short story telling about this plant, it's owner and also the fact that the property is for sale as a going concern as Mr. Carpenter who was also a large dealer in big timber wished to confine his activities to the timber business. Now then, it is certainly an "ace in the hole" proposition, that this factory did not burn down before that date, therefore the real true time of its demise must have been the spring of 1905, for it is generally agreed among all of us historians that it was the spring of the year when the conflagration took place. Such being the case you can write it in your diary that the Carpenter fire was in the spring of 1905, or 29 years ago this spring.

My only recollection of that fire was of being held in my mother's arms as she stood on the plank sidewalk in front of the old home on Main at yet and seeing the whole village illuminated by the flames and my mother talking to the late Jack VanDyke, who was smoking a cigar as usual.

As near as I can gather this factory was the first basket factory in Canada and was started by the Cross family about 1870 or 1880, although the late Beverly Nelles had previous to that time in collaboration with the late Wm. Forbes and other gentlemen a

canning factory on that site or possibly in those same buildings. At the time of this fire Mr. Carpenter was a member of the Village Council. This factory stood on the east side of Main street just as you rounded the curve of Mill Hill. The first building a stone house was the old Mabey homestead and then came the frame factory buildings. In this stone house which was also consumed by the fire, the first library in Grimsby was established, then known as the Mechanic's Institute, but at the time of the fire was located in the upstairs portion of the fire hall now used as a recreation

WANTED

During the move from the Big House to our present apartment, somebody, some how, lifted the one and only book that meant anything around about 1897 and up to 1900 Mr. W. H. Groff, a son-in-law of the Rev. James M. Goodwin, compiled and had produced a history of the Grimsby district. There was only a limited number of this compilation published. I had one. I haven't got it now. There must be some place in this district a copy of that book. Look in your attic, your cellar or any place else and find one. I want it. I need it. I will willingly pay cash for a copy of this edition, or if you will lend it to me I will gladly return it to you. Thanks. Let's see how good Independent Want Ads are.

room by the smoke eaters. The late James Brady was librarian.

As a call from the days of '95, the fire company of that year was a told composed of close to fifty men and that was the company that produced the championship basketball team of 1900 and 1901, champions of Western New York and Southwestern Ontario. Those were the men that fought the big Carpenter fire aided by their other comrades to were not members of the basketball team. The old hook and ladder and air hose reel and the old hand pump engine were drawn by hand. Bruce Smith has the old

ANNUAL MEETING UNITED CHURCH

Encouraging Reports Presented At Yearly Congregational Gathering — Reflect Activities of Various Organizations.

Reports of an encouraging and satisfactory character were presented at the annual meeting of the congregation of Trinity United Church on Thursday evening last, the statements of the various departments of the church indicating that they had been active throughout the year. The financial report for the twelve months showed that the year had been concluded with a good balance on hand.

Mr. C. S. Bean was appointed chairman of the meeting and Mr. Jas. I. Theal, secretary.

Rev. E. A. Earchman, pastor of the church, conducted the devotional exercises following which the reports from the different organizations were presented indicating the satisfactory results achieved.

Reports were presented from the Session, The Choir, The Sunday School, The C. G. I. T., The Mission Band, The Woman's Missionary Society, The Evening Auxiliary, The Woman's Association, The Men's Club, The Board of Stewards, and the Session and Relief Fund while the treasurer presented the annual financial statement.

Following the giving of the reports (Continued on page 4)

FISHERMEN HAUL IN BIG CATCHES

A recent issue of the Independent of St. Petersburg, Florida, where quite a number of citizens of this district are spending the winter, contained the following interesting item.

The Miss Buckeye came back to port Thursday with 500 pounds of fish one of the largest catches of the season. Murray Walker, New York state, hauled in a 30 pound grouper, the best catch of the day.

Others on the cruise were: A. W. Eickmeier, Grimsby Beach, A. B. Book Grimsby, Canada; P. D. Leeking, and George Wickham, New Jersey State; C. M. Bean, Illinois State; F. Leahley, Pennsylvania; A. J. Lount, Ohio, and W. A. Hinds, New York State.

PEACH BUD INJURY IN THE NIAGARA DISTRICT

Very Severe Injury Resulting in Almost Total Crop Failure, in Some Orchards and Very Light Crops in Others in Grimsby District and Points West — Hardy Varieties in Beamsville, Vineland and Jordan Area Show Slight Injury — Fairly Severe Freezing In Case of More Tender Varieties — Injury Comparatively Light From St. Catharines To Niagara River — Total Crop Should Not Be Much Below Average.

The Horticultural Experiment Station has just completed an extensive survey of the injury resulting from the recent severe cold spell. This survey indicates the injury to be about as follows:

1. Grimsby district and points west — very severe injury resulting in almost total crop failure in some orchards and very light crops in others.

2. Beamsville, Vineland and Jordan area — hardy varieties show slight injury; more tender varieties such as Elberta, fairly severe freezing. Sufficient live buds remain to produce a light or possibly moderate crop depending on variety and local conditions.

3. St. Catharines to Niagara River — the injury has been comparatively light except in areas removed some distance from lake or river influences or in orchards above the escarpment. There are sufficient live buds to ensure a satisfactory crop in most varieties.

There is some suggestion that the buds in the tops of the trees have suf-

fered less injury than the buds in the lower parts of the trees. Therefore growers are advised to determine the amount of bud killing in the tops of their trees before doing any heading back. If the buds appear brown in the centre when cut with a razor blade they are definitely useless even though they may come out in bloom when kept in water for a few days. It would certainly be inadvisable to further reduce the crop by pruning in cases where bud killing has already seriously cut down the possible crop. Where there is still a possibility of even a light crop of peaches this winter's pruning should be reduced to a minimum.

Provided there is no further injury and if conditions at blooming time are satisfactory the total Niagara Peach crop should not be much below average. This estimate takes into consideration the fact that relatively more peaches are ordinarily produced in the east end of the district than in the west where the injury was so severe.

SEVERAL NEW INDUSTRIES MAY LOCATE IN GRIMSBY

The activities of the Industrial Committee of the Grimsby Town Council are beginning to bring results, and it is possible that two large industries may locate in this town. Mayor McPherson and Reeve Mogg have been particularly active of late in endeavoring to secure new industries for the municipality.

One of these industries has a yearly payroll of \$50,000 and employs a considerable number of hands while a third one is also considering locating here and utilizing a government building which is now vacant.

The Mayor and Reeve while in Ottawa a few days ago followed up several industrial propositions through the Minister of Trade and Commerce besides adjusting several other matters which required the attention of the representatives in connection with the affairs of the municipality.

While their travelling expenses were taken care of by the town their time was freely placed at the disposal of the municipality, they also looking after their incidental expenses.

NEW APPLE ON DISPLAY

A Beautifully Colored Red Spy — E. D. Smith & Sons Ltd. Have Taken Up Pate Red Spy For Propagation — Prize Being Offered For Name.

There is a new red apple on display in Anderson's store just now, that is attracting considerable attention, probably for two reasons: one because it is a beautifully colored red spy and in the next place, because the introducers are offering a prize of \$25.00 for a suitable name for it. The new apple which has been under test for some time, but not yet offered for sale, is, to all appearances, just another spy but of a beautiful red colour and strikingly handsome. It is said to be found in the orchard of Mr. A. W. Pate, a prominent fruit-grower living near Paris. It is said that Mr. Pate has worked a number of his orchard trees with this new variety which he says has always brought him higher prices in Great Britain than any other apple he ships. It would seem that Mr. Pate has a winner in his new apple, and that E. D. Smith & Sons, Limited, Winona, who for more than half a century, have been constantly on the lookout for new and better varieties, quick to take them up for testing and slow to propagate them for sale until they have been tested and proven, seem to have shown good judgment in taking up the Pate Red Spy for propagation. Trees are not ready for sale yet, but will be soon. Just now, the introducers want a name for it.

Anybody wanting to suggest a name for the new apple, can see the fruit at Anderson's. Call and suggest a suitable name. Ballots are furnished for that purpose and printed rules governing the contest can be had there. The decision as to the best name will be left to a committee of three prominent men not in any way connected with the Smith firm. Looks like an easy way to get \$25.00 cash.

Fear Peach Buds Frozen In Stoney Creek District

Twenty-two below zero, a low temperature record for the Stoney Creek district, leaves little doubt in the minds of experienced fruit growers that the peach buds are all killed. Even before this cold spell, it was generally believed that the sub-zero weather in December had killed most of them. Now it is feared that the Japanese varieties of plums will also have succumbed to the severe cold. Last year the Burbank variety was almost a complete failure through winter killing, so it would appear that there is little chance for it this season.

"It is 20 years ago," declared Councillor Thomas Dale, "since we had a complete failure of the peach crop here, although from Winona easterly at that time there was a fair crop."

That it may repeat itself this year is the belief of several of the leading fruit growers at Winona, as the temperature did not go nearly so low at that point.

"It's a great break for the melon growers," stated H. B. Smith, "as a good crop of peaches usually means low sale for melons. This year it looks as if they might have the market all to themselves."

"It's the old story," remarked a philosophically inclined grower, "What we lose on the wheel, we pick up on the merry-go-round."

SUDDEN DEATH OCCURS OF DR. SUTHERLAND'S BROTHER

Friends here will sympathize with Dr. G. M. Sutherland, president of Deserobis Limited in his bereavement through the sudden death of his brother, Mr. Andrew Sutherland, of Toronto who suffered a heart seizure in Glor street on Wednesday morning and passed away.

Card of Thanks

The family of the late Thomas Hill desire to express their sincere appreciation to many friends for their kind expressions of sympathy, loan of cars and floral offerings in their recent bereavement.

BIRTH

BORN—At St. Catharines on Monday, February 12, 1934, to Mr. and Mrs. Albert Holmes, (nee Frances Shepherd) of Grimsby, a son. Both doing well.

...SMILES...

An expert is a man who gets paid whether his advice turns out good or bad.

You say that if a millionaire should happen to propose to you, you'd turn him down for love of me. You'd be that true?

I'm sorry, dear, this is the end; I hate to cause you pain, but I can't love a woman who admits that she's insane.

We must prepare ourselves for constant change. Otherwise we'll be pushed aside to become mere spectators instead of actors in the great game of life.

Man—"The doctor says I need a change of climate."

Neighbor—"What are you going to do?"

Man—"Pray for an early Spring."

Sandy MacPherson and his wife, Maggie, stopped in front of a restaurant window in which was hung a card bearing the words:

LUNCHEON
From 12 to 2 p.m.
35c

"We'll have our lunch here, Maggie," said Sandy. "Two hours steady eating for 35 cents each is no bad 'ad."

Mince Pie

About the only way you can get a fur coat out of some husbands is to out fox them. Because a man is old, he is not by any means sure to give good advice. The turning point in a man's life is when he stops trying to duck temptation and starts meeting it half way. In fishing you can see what you've hooked, but in marriage you never know what kind of a fish you've landed until you live with it. Would you call a lingerie salesman an undercover man? The way to a man's heart may be through the kitchen, but a short cut is through the beauty parlor. You don't know what trouble is. Suppose you had to pay tax for inheriting a farm.

Man—"That was a fright of a woman I saw you with last night."

Out-of-Town Friend—"Well, don't tell my wife."

Man—"She didn't know about it, eh?"

Out-of-Town Friend—"Oh, yes; she was the woman."

Correct this sentence: "I own my success to the fact that I happened to guess right a couple of times," the millionaire admitted.

Suitor—"Sir, I have an attachment for Alma."

Father—"Young man, when my daughter needs accessories, I'll buy them for her."

The burglar who used to slink around wearing a cap and red handkerchief around his neck now swaggers up the street in spats and cane.

A man may be dumb, but he's never lonesome.

The cub reporter was parting his hair in front of the mirror in the wash room. The Office Grouch happened in.

"Say, Sonny," said the Grouch, "you have a fine alley on that block."

Don't be too solemn. The only thing that never grows old and useless and unpopular is a joke.

Charting the Seven Seas

For a few shillings in London one can buy a chart of any corner of the Seven Seas. They are made by Admiralty copper engravers, and there are only forty men in Great Britain still plying the trade. Most of them work in a building in Cricklewood, and they are nearly all related to one another. The Holmes, the Carver's, and the Welland have been cutting tiny marks on copper for centuries. As apprentices they had to live with their masters and frequently married "into the firm."

A boy learns for five years to carve minute marks, perfectly formed lines, dots, and other marks on copper, working with thin pointed tools and with a magnifying glass screwed into his eye.

There is one chart even Britain cannot supply—the chart of Gibraltar. Survey parties have found it impossible to measure from the mainland, as the "Rock" affects the compass. Application for leave to work on Spanish soil is refused.

Greatest Fear of Women

Students is Unpopularity

Rockford, Ill.—First year students at Rockford Women's College are afraid of unpopularity more than anything else. This was disclosed by a psychological examination.

Other "chief fears" were suspicious looking men, dark streets, mice, snakes, spiders, living too long, and what happens after death.

A wife who is given plenty of rope is liable to slip.

TRAVEL IMPRESSIONS

Open Air Opera in Rome

Rome—the name that has stirred the imagination of nations and individuals for many centuries—is still potent to cause intense interest today. Most people think of it as either the centre of the largest church organization in Christendom or as the ancient city, wherein lie hidden the keys of history. The Rome of today is more than this; it is the Capital of one of the world's foremost states; it broad and splendid avenues, beautiful parks, magnificent fountains and stately buildings are worthy of its importance, past and present.

The right way to enter Rome is from the north and by motorcar; thus you follow the path of history. This is the route, and the method I adopted for my party when visiting the Eternal City the last two summers. In 1932, coming south-west from Florence and stopping overnight at Perugia, we entered the city and crossed the Tiber on the famous Milvian Bridge. Continuing along the ancient Via Flaminia we passed a huge Fascist camp in which were congregated fifty thousand Avanguardisti from all parts of the Kingdom of Italy. This is the "Campo Dux," a tent city which rises magically from the soil every September. It is a real, self-contained city with electric light, radio, telephone, post office, barber and cobbler shops, and it is the cherished ambition of every Avanguardista—as the adolescent Fascist boys, between fourteen and eighteen years of age are called—to have the distinction of attending this camp.

We passed through the Porta del Popolo, the massive gate constructed in 1576 on the site of an older gateway erected by Flaminia when he built his great road. Here we found ourselves in one of the busy centres of the city, bus lines and tram cars constantly moving around the great Piazza. Rising from the centre the old obelisk, brought from Egypt in the year 30 B.C., and the eight fountains flashing their merry welcome, met our gaze and, just around the corner, we entered our hotel—one of the finest in Rome, with a garden extending up to Pincian Hill. This garden was a veritable fairyland; its semitropical vegetation, fountains, twinkling lights among the trees, etc., was a delight to behold and, when added to this, we experienced the wonder of seeing the full moon gradually entering a full eclipse, our cup of happiness filled to overflowing.

Man—"The doctor says I need a change of climate."

Neighbor—"What are you going to do?"

Man—"Pray for an early Spring."

Sandy MacPherson and his wife, Maggie, stopped in front of a restaurant window in which was hung a card bearing the words:

At the end of the huge enclosure a large stage was set up and when the time came for the curtain to rise, the air was tense with anticipated excitement. Finally a bugle sounded and a rush, preceded by a hissing sound, came over that vast throng—a marvellous exhibition of interest and control that would not have seemed possible had one not been there to see it. Behind us there was one interruption. A woman was having a seat that she claimed; we thought that the people around her would have mobbed her for disturbing the performance.

The opera proceeded. It was gloriously staged. The electrical effects were marvellous and the members of the cast did their work as smoothly as the finest company in the most up-to-date theatre. Of course Volpi was magnificent and the audience nearly went wild at the conclusion of the familiar numbers, particularly after the singing of the quartette. It is impossible to describe the feeling that went over us during this unusual entertainment; when the storm scene was being enacted, its effect was so realistic that we could almost feel the chorus sang, under the moonlit Italian sky, we were transported; even to those of us who had heard the opera before, it was new.

The final curtain had to be raised many times before the audience was satisfied with the sight of the principals. We made our way out of the open air auditorium much more leisurely than we entered. It was interesting to watch the individuals who made up the throng and to hear their excited comments on the performance. Outside the soldiers and police were lining up to march away; the crowd dispersed in an orderly fashion; we finally secured taxis and the pleasant and exceedingly worthwhile evening ended.

Supposing that next week I take you into Yugoslavia for a change.

Queen of Greenwich Village Organizes Costume Ball

New York.—Cynthia White—some call her Greenwich Village's Queen—has organized a costume ball to be held at the Waldorf-Astoria.

By subway and taxi, they reached the Waldorf-Astoria. The ball was a success. The costumes were beautiful. The dancing was excellent. The food was delicious. The night was a memorable one.

Now that it's no longer Bohemia, now that it has passed through the art era and the "Arty" epoch into something else again, she still promotes this terrific dance and packs them in.

A smallish woman, snappy-eyed, she annually gushes memories. She sat in her brevoort suite very busy arranging things but not too busy to lament the days when "the village was not a mere geographical unit, but a lovely state of mind."

More Red-Headed Boys Than Red-Headed Girls

There are more red-headed boys than red-headed girls, according to a report issued by the Medical Research Council, London, this conclusion having been arrived at by Miss R. M. Fleming, of the Medical Research Council, after a study extending 14 years and taking in 2,129 boys and 2,073 girls. The report also mentions the following facts:

The blue eye of a baby becomes brown, but to brown eyes ever become blue again. Changes in eye and hair color are always to darker shades not lighter. Boys and girls are equal in average height up to 11 years. Girls are taller than boys between 11 and 14. Afterwards boys become steadily taller than girls. Girls are darker than boys. The average head measurements are greater in boys than in girls at every age.

Children's Coughs and Colds Go Overnight

Mother, don't worry when one of the little ones has a bad cough or cold—just get a bottle of BUCKLEY'S MISTURE and mix with equal parts of honey. "It acts like a charm." One little pleasant dose will give considerable relief. Two doses often end a bad cold.

And don't forget—BUCKLEY'S MISTURE will rid you of a cough, cold, or even a croup, just as quickly. In fact, quick action will astonish you. Play safe. Refuse substitutes. Buckley's is sold everywhere.

High School Boards and Boards of Education

Are authorized by law to establish Industrial, Technical and Art Schools

With the approval of the Minister of Education

Day and Evening Classes may be conducted in accordance with the regulations issued by the Department of Education.

Theoretical and Practical Instruction is given in various trades. The schools and classes are under the direction of an Advisory Committee. Application for attendance should be made to the Principal of the school.

Commercial Subjects, Manual Training, Household Science and Agriculture and Horticulture are provided for in the Courses of Study in Public, Separate, Continuation and High schools, Collegiate Institutes, Vocational Schools and Departments.

Copies of the Regulations issued by the Minister of Education may be obtained from the Deputy Minister, Parliament Buildings, Toronto.

Let us hear the sad and lonely words of a willing pen. Try to tell them faith and courage. Making life worth-while again. Do not fail to send them bouquets, fall to see or hear, chance of doing kindness. Filling arts with love and cheer. E. Nightingale, Rockwood, Ont.

Forty miles of quay and a water area of 22 acres are included in the 4,203 res of the docks of London.

pronto Secures 82 New Concerns

launched by Industrial Commission Since 1929—Up Swing in 1933

Since 1929, when the depression first struck industry, the Toronto Industrial Commission has been instrumental in launching 82 new industrial concerns in Toronto which have cost \$1,929,026 to Toronto ratepayers and have invested \$3,028,700 in plants and equipment. It was revealed at the annual meeting of the commission during 1933. It was also disclosed, definite upswing was revealed when employment between May 1, 1933, and the end of the year advanced by 12 per cent. and 22 new industrial concerns, employing 561 persons, investing \$742,500 in plants and equipment and occupying 232,700 square feet of floor space, established plants in Toronto. In number of industries, resulting employment, plant and equipment investment and floor space required, this exceeded 1932 by a wide margin.

During 1933 the commission was consulted by an increasing number of local manufacturers seeking new lines to manufacture, larger and more suitable manufacturing space, market information, both domestic and export, and information on obscure sources of equipment and materials. It was noted in the report for 1933. A lengthy list of manufacturing concerns which utilized the commission's services was appended to the report.

The meeting of directors returned the same officers for 1934 as directed its operations in 1933. They were: Hon. president, Mayor W. J. Stewart; president, C. I. Burton; vice-presidents, Samuel McBride, John A. Tory, P. E. Waterman; city council representative, Mr. McBride; Board of Trade representatives, J. H. Black, C. L. urton, William Inglis, Harry McGee, F. D. Tolchard and John A. Tory; Canadian Manufacturers' Association representatives, A. B. Cooper, P. E. Waterman, A. Ross Robertson; Toronto Hydro representative, E. M. Ashworth; T.T.C. representative, D. W. Harvey; harbor commission representative, George W. Porter; exhibition representative, H. W. Waters. Mr. Robertson replaced Roy D. Kerby who resigned recently when he moved to Oshawa. H. B. Keenleyside was reappointed general manager and secretary.

Young Scotswoman Does Botanical Work in Far North

Undertakes 500 Mile Journey With Sled and Dog Team When She Misses Steamer

After Miss L. W. Hutchinson of Kirkcaldy, West Lothian, had been searching for rare plants and flowers near Cape Barrow, on the Arctic coast of Alaska, she missed her steamer. It was the last steamer of the season. Being a young Scotswoman of exceptional pluck as well as exceptional hardness, Miss Hutchinson hired an Eskimo dog team and set off by sled on a 500-mile journey along the frozen coast to Herschel Island, off Yukon. At times the temperature fell as low as 70 degrees below zero—but Miss Hutchinson arrived safely and reported to be quite fit. Her specimens were collected for Kew Gardens.

Miss Hutchinson, who spent some months in Greenland on botanical work last year, was introduced to Kew by the officials of the Botanical Gardens at Edinburgh, for whom she has done considerable work. She has recently been granted a special visa from the Soviet Government to visit Siberia for a short time to carry on her botanical researches.

Her work is considered so valuable that she is financed on those expeditions by a group of leading horticulturists, who are anxious to obtain seeds of rare plants.

Women's Reserve Opens Recruiting Depot at Sheffield

London.—Domestic servants joining the unofficial "women's reserve" being organized by commandant Mary Allen, formerly of the Metropolitan police, are all eager to study firearms, says the commandant.

Although they are taught the nature of different weapons they are not given instruction in shooting, she adds. The reserve, organized to act in case of war, general strike or similar national emergency, has opened its first recruiting depot outside London at Sheffield. Whether the Steel City was selected because it was one huge arsenal during the war is not stated, but the recruits there are promised instruction in anti-gas methods, casualty treatment, fire drill and motor truck driving.

Among the first recruits at Sheffield was the Deputy Mayoress.

Resolves for the New Year

Let our hearts be kind and tender. With the folk along life's way. Doubly pardoning every action. Careful of each word we say; Bringing cheer to those afflicted. With self-control and despair. Always ready to be helpful. Not getting them in prayer.

Let us hear the sad and lonely words of a willing pen. Try to tell them faith and courage. Making life worth-while again. Do not fail to send them bouquets, fall to see or hear, chance of doing kindness. Filling arts with love and cheer. E. Nightingale, Rockwood, Ont.

Driven to Matrimony By the Depression

Kansas City.—It was they both lost—the United States Government and the woman who wrote Dan N. Now, collector of internal revenue, the following letter:

"In regard to the enclosed income tax blank, please take my name off the list, as I was driven to matrimony by the depression and now am working for nothing."

Film fans will be interested to know that the "voice" of Mickey Mouse, as heard on the talking films, is really the voice of Walt Disney, the inventor and creator of all these clever films. He has 150 artists, who work on the thousands of separate drawings which are necessary to build up each short film.

CHEST COLDS—MECCA OINTMENT AND MUSTARD POULTICE

At first sign of a cold on the chest apply a Mecca Poultice with the addition of mustard. The warmth in combination with the healing properties of Mecca Ointment will give quick relief. Full directions in each package.

JAS. I. THEAL NEW CHAIRMAN

(Continued from Page 1.)
his term of office and regret over his retirement from the Board.

The Board approved the application for inter-British exchange of teachers. Miss McQuade was granted one month's leave of absence because of illness.

A resolution was passed that the supply teachers in the high school be paid at the rate of \$7.00 per day.

Miss Neal was given special permission for part time attendance due to the illness of her mother.

E. J. Muir was re-appointed secretary - treasurer of the board for the year 1934 at the same salary as last year.

Mr. S. T. Healey was re-appointed caretaker of the public schools at the same salary as last year.

The Board decided to advertise for a caretaker of the High School.

A delegation from the Merritt High School recently inspected the Grimsby High School, as plans are

now being formulated for the erection of a high school in that place.

The school nurses' report submitted by Miss Carson of St. Catharines, of the Medical Inspection Committee of Lincoln County for the month of January showed a total enrollment of 323 and number inspected 600. Six were reported with new defects and six with defects corrected. The number practicing health habits was given as 78% while cleanliness of class rooms, cleanliness of toilet, and facilities for washing and drinking water supply were reported as good in the public school.

The total enrollment at the public school for January was reported at 325 and the average attendance as 275.20.

The attendance report at Grimsby High School for the month of January showed enrollment of boys as 78, and girls 86. There are 80 students from the town of Grimsby and 84 students from the county of Lincoln. The total enrollment is 164 and average daily attendance 151.

Try the Classified Column of The Independent. You will get results.

Local Items of Interest

At the Baptist Church on Sunday Evening the musical part of the service will be given by the High School Choir, (80 voices), under the direction of Mr. Gordon Eaton. Besides selections by the choir there will be a male voice double quartette. This will be the first appearance of the High School Choir in a service of this kind and a large attendance is expected. Mr. T. L. Dymond will be at the organ. The subject of the Minister's address will be "Tuning the Race."

The local meeting of the Women's World's Day of Prayer will be held in the United Church on Friday afternoon at 3 o'clock. The women of all the churches are invited.

The Special Services in the Gospel Hall are being continued each night this week and next D.V. Considering the extreme weather the attendance and interest is encouraging. You are invited. All welcome.

The local Mothers' Club will hold their regular meeting in Trinity hall on Thursday afternoon at 3 o'clock, when Mrs. W. H. Cline will be the speaker.

According to the records of Town Clerk Bourne the amount of building permits issued in 1933 as compared with the year previous showed an increase from \$11,980 to \$14,747.50. 28 permits were issued in 1933 and 37 in 1932.

Chief Demill who has been laid up as a result of injuries received in a recent fire will resume his duties on Thursday.

ANNUAL MEETING UNITED CHURCH

(Continued from Page 1)
Rev. Mr. Earchman reviewed the year's activities and commended the various organizations on the excellent work accomplished, as well as referring to the very satisfactory financial report submitted in view of present day conditions.

The total resident membership of the church has advanced to 476 while the total amount raised for all purposes during 1933 was \$8,392.53, including a substantial amount for missionary and benevolent purposes.

Fourteen funerals were recorded during the year.

In a resolution passed appreciation was expressed of the splendid service given by the pastor, Rev. Mr. Earchman during the year, reference being made to the efficient manner in which he is carrying on his ministry here.

The following stewards were elected for a three year term to take the place of those retiring: Russell Terry, C. D. Millyard, T. L. Dymond, N. M. Walker and P. E. Wilkins.

Elsie Drury was re-elected treasurer and church envelope secretary. E. J. Muir and A. V. Catton were re-elected auditors.

A social hour was afterwards enjoyed, the ladies of the church serving refreshments.

At a subsequent meeting held by the Board of Stewards, Mr. T. R. Hunter was re-appointed chairman, while Mr. J. O. Moore was named secretary.

The following committees were also appointed:

Finance — T. R. Hunter, chairman, A. G. Boulter, P. E. Wilkins, W. A. McNeven, C. D. Millyard.
Hall and Manse — A. Cloughley, chairman, T. L. Dymond, N. M. Walker, R. Terry and E. Stonehouse.
Church and Grounds — G. Tennant, chairman, W. May, G. M. Beamer, A. E. Merritt, and J. O. Moore.

He had proposed to the daughter of the house. She had accepted him.

Now came the difficult part. He had to ask her father.

"I wish to marry your daughter," said the young man in a burst of bravado.

"Can you support a family?" came father's question.

"Yes sir," said the young man eagerly.

"All right then," said father.

"But, remember, there are eight of us."

Minimum Price of \$40.00 For Grapes Still In Effect

About 75 grape growers were at a meeting of the Beamsville local of the Grape Growers' association in the town hall Wednesday evening last. The speakers were: J. J. Smith, Cecil Pettit, Winona, R. Challice, St. Catharines, Arthur Smith, Vineland, W. "Only a Rose", from the Vagabond King which was much enjoyed. Mr. W. E. Cullington, the secretary, gave a summary of the society's work and plans for the future.

The meeting closed with the singing of the National Anthem.

VIEWS OF FAMOUS GARDENS SHOWN

(Continued from Page 1)

in England, Scotland, Ireland, Japan, and the widely known Butchart Gardens situated in Victoria, B.C.; displays of color against the soft background of towering green hedges, rockeries of unbelievable beauty amid cool, trickling streams.

"Canada has only taken up horticulture the last twenty-five years," said the speaker. "Gardening in the Old Country these fine gardens have three hundred years to their credit," said the speaker.

"Canada is a different proposition but results are showing up well," several unsightly backyards before and after planting were shown, revealing startling transformations which made one realize just how important is education along this line.

"Whatever you do," said Mr. Whitehead, "plant your garden well before you start."

Treasurer's Sale of Lands for Taxes Township of North Grimsby, County of Lincoln.

Notice is hereby given that the list of lands liable to be sold for arrears of taxes or rates in the Township of North Grimsby has been prepared and is being published in an advertisement in the Ontario Gazette upon the 10th, 17th and 24th of February and the 3rd of March, 1934. In default of payment of taxes as shown on such list on or before Saturday, the twelfth day of May, 1934, at 2 o'clock in the afternoon, I shall, after said time at the Council Chambers in Grimsby, proceed to sell by Public Auction, the said lands or such portion thereof as shall be necessary to pay such arrears together with the charges thereon. The copy of said list may be seen at the Treasurer's Office.

Dated at North Grimsby this 5th day of February, 1934.

THOMAS W. ALLAN,
Treasurer.

Social and Personal

Mr. W. Stephen, of London, was home over the week-end.

Mrs. E. E. Dechtel is spending several weeks with her daughters in Kitchener.

Mr. Hugh Kelson, who has been a member of the local staff of the Canadian Bank of Commerce for several years, has been transferred to the Welland branch. His many friends here will regret to learn of his removal but will extend their best wishes for his success in his new position.

Miss Gladys Shelton visited last week at St. Catharines.

Mr. and Mrs. Richard Theal, of Grimsby, and Mr. and Mrs. Howard Bartlett, of Dunnville, intend leaving this week for Texas and Florida where they will spend several weeks.

Miss Ruth Fisher spent two days last week at her home in Niagara Falls, Ontario.

W. I. MEETING

The regular meeting of the W. I. will be held at the home of Mrs. Andrew Swayze, 33 Ontario St. on Tuesday, February 20th, at 3 p.m.

Roll call, What are the duties of the officers of W. I.

Paper on, "Legislation" by the convenor.

An exhibit by the members of something new made from something old. Music by a pupil of Mrs. G. E. Bolton.

The drawing for the blanket on display in Mrs. Thompson's window on Main St. will be made at this meeting.

Refreshment Committee: Mrs. Pott-ruff, Mrs. Mitchell, Mrs. Farrell and Mrs. Sangster.

Township Council

(Continued from Page 1)
ter but a misunderstanding had arisen because of the passing of the original resolution some years ago when the water rate was first fixed.

Councillor Durham thought the township should have at least three cents more than it pays the town of Grimsby, making the rate 27 cents per thousand gallons which would permit accumulating a small surplus to take care of repairs and other possible outlays.

The representatives of the Councillors' Association asked that a final decision be deferred until they could take the matter up with the association board and it was laid over until the next meeting.

Wanted By-laws Passed

Appearing before the council on behalf of the two Grimsby Dairies, J. Harry Earl requested that the council pass a by-law making it necessary for milk distributors in the township to use bottles bearing their own name. This, he said, was needed to clear up the bottle situation.

Mr. Earl also desired the council to pass a by-law requiring that milk distributed in the township be pasteurized.

Doubt was expressed as to whether the council had authority to deal with the bottle situation referred to, while in connection with the subject of pasteurization the councillors hesitated to take any action which might prove a hardship to producers in the township.

Resolutions Passed

Moved by Deputy Reeve Graham, seconded by Councillor Durham that the clerk be authorized to order from the Canadian Valve and Hydrant Company, one complete hydrant.

Moved by Deputy Reeve Graham, seconded by Councillor Smith, that the water users in the township receiving a double service shall pay \$28.00 instead of \$32.00 as formerly and that all water used by any user over 5,000 gallons shall be paid for at the rate of 26 cents per thousand gallons.

Moved by Councillor Smith, seconded by Deputy Reeve Graham that the Library Board be given a cheque for \$200 on account of 1934 grant.

Moved by Deputy Reeve Graham, seconded by Councillor Crittenden, that the road superintendent attend the convention for road superintendents to be held at the R. Y. York Hotel on February 19th and 20th, the department agreeing to pay 50 per cent. of his expenses.

Moved by Deputy Reeve Graham, seconded by Councillor Smith that W. C. T. Bromley's application as water works superintendent be accepted.

Moved by Councillor Crittenden, seconded by Deputy Reeve Graham that we buy 2,000 feet of white oak plank for culverts and bridges at a price of \$53.20 per 1000 feet, delivered, including sales tax.

Moved by Councillor Durham and Crittenden, that William Neilson be appointed collector of water rates for the year 1934 at a salary of \$75.00, he to find his own postage.

Obituary

The funeral of the late Mrs. Margaret Lavinia George of Grimsby Beach which was held on Monday from the Stonehouse Funeral Parlor to Queen's Lawn Cemetery was largely attended by many friends. An impressive service was conducted by Rev. E. A. Earchman, assisted by Rev. W. H. Cline and Rev. H. Merritt. Mrs. George was a much-beloved Christian woman; an Ojibway Indian of the very highest type. Through circumstances she was not able to attend school for more than a year yet through extensive and wise reading she educated herself and by sacrifice and hard work strove to give to her daughter Marjorie, the opportunities which an advanced education offered, always with the high ideal before her of doing something for her people as a nation.

She lived in a small house in the woods at Grimsby Park for nearly a score of years and many a cottager will miss her cheery smile as she welcomed them when first opening their closed up cottages. She was in her 8th year and passed away on Friday at the St. Catharines General Hospital after a short illness of about a week.

Many beautiful flowers covered the casket. Among them were wreaths from the Women's Improvement Society, from the Church Committee at Grimsby Park and from the Grimsby Beach Sunday School.

She leaves one daughter, Marjorie, a nurse in the hospital. The pallbearers were Messrs. P. Jordan, Charles Durham, Fred Jewson, H. A. Newton, E. Davis, and a relative of the deceased, Mr. Claus.

Mrs. E. Bradt

The death occurred Sunday, at her residence, Tweedside, of Margaret Wright, beloved wife of Edward Bradt. Deceased was born in Glanford 71 years ago, but had resided in Tweedside for the last 47 years. She was a member of the Free Methodist church at Hanson and took an active part in the Sunday school and United church at Tweedside. Left to mourn, besides her husband, are two daughters, Mrs. Edgar Milmine, Grassies; Mrs. J. S. Purcell, Vinemount; one son, William Bradt, Vinemount; one brother, John Wright, Toronto; seven grandchildren and one great-grandson. The funeral was held on Wednesday afternoon last from her late residence, with service at Tweedside United Church, Rev. D. Allen and Rev. A. R. Johnson officiating. Six of the grandsons, Lorne Bradt, Jack Bradt, Harry Milmine, Gordon Purcell, Ken Switzer and Frank Walker acted as pallbearers. Interment took place in Tweedside cemetery.

Thomas Hill

Fellow citizens were shocked to learn of the tragic death of Thomas Hill, for many years a respected resident of Grimsby. He dropped dead on Thursday morning last immediately after punching the clock at the Dominion Cannery here where he was employed.

The late Mr. Hill was a member of the old Grimsby Volunteer Fire Brigade and was a ladder man on the champion hook and ladder team which won the championship in 1894-5.

Surviving besides his sorrowing wife, are one daughter, Mrs. Milton Law, by, Grimsby and one son, Mr. Hill, of Grimsby.

The funeral was held on Saturday from his late residence on Gibber avenue and was conducted by the Rev. J. A. Ballard. Interment was made in Queen's Lawn cemetery. Many floral tributes were received including the Grimsby Fire Department, the Young Men's Club of Kitchener and the Chicago Hockey Association. The pallbearers were: Messrs. H. H. Farrell, A. Hewson, T. E. Mannell, W. B. Smith, W. J. Schwab and H. Weige.

BURLINGTON TO HAVE LARGE TAX SALE

One of the Burlington largest tax sales in the history of Burlington will be held next fall. A total of 103 properties will be put on the block, it was stated. The properties, against which there are tax arrears for a period of at least three years and in some cases longer, have arrears against them totalling approximately \$40,000. J. J. Hobson, treasurer, busy getting out the notices on the properties to be sold and owners will have at least another three or four months to pay up the arrears and remove the land from the list. In ward 1 there are 38 properties listed for the sale; in ward 2, 42; ward 3, 13, and in ward 4, 10. In at least 50 per cent. of the cases the property offered comprises vacant land.

At a meeting of the public school board held it was decided to ask the town council to provide the sum of \$20,200 for the upkeep of the schools.

SUNDAY SCHOOL LESSON

Lesson 7, February 18, Jesus' Power to help. St. Matthew, Chapter 9, verses 1 - 13.

Golden Text — I will have mercy, and not sacrifice for I am not come to call the righteous but sinners to repentance.

The heart of the lesson, "Jesus power to help" is a mild way of expressing the power of the One who healed the leper, controlled the tempest, commanded the demons, opened blind eyes and raised the dead. Yet these great physical and earthly needs are but little compared with the deadly disease of sin, the living death of an unregenerate heart. And Christ's power in miracles was little compared with the power needed to say, "Thy sins are forgiven."

After the sermon on the Mount, Matthew significantly tells of the leper who came with his plea; "If thou wilt, thou canst make me clean." That leper in his physical need is a picture of the man who faces the righteousness of the sermon on the mount; guilty under condemnation, defiled, destitute of righteousness and of holiness and destitute of any power to save himself. He who said, "I will; be thou clean," is the one who can give us power to be what the sermon on the mount requires. He who called Matthew the publican from his sin and from his business, and made him Matthew the Apostle and writer of our gospel, can work that same transformation in those of us who now read the gospel.

JAMES A. HEWITT A Visitor To Grimsby

James A. Hewitt, ex-Mayor of Elyria, Ohio, is renewing acquaintances in Grimsby and Beamsville, and visiting with his mother Mrs. James A. Hewitt, Sr., of Beamsville whom her friends will regret to learn is not in the best of health. "Jimmy" looks hale and hearty and does not appear to have lost any pounds, worrying over the depression and the financial state of the American banking system. At the present time he is the United States government appointed Comptroller of the banks and trust companies in Elyria.

Rather Obvious

Mrs. L.: "Tom says that Mary is too temperamental to make a happy home for a man. What is 'temperamental,' anyway?"

Mr. L.: "H'm. See that woman crossing the street—the one with a baby in her arms—and four children clinging to her skirt?"

Mrs. L.: "Yes."
Mr. L.: "Well, she isn't temperamental."

HIGH SCHOOL NEWS

Although the school girls' basketball teams met with defeat at St. Kitts the school hockey sextettes meet the Normal of Hamilton team on the local ice.

The Student's Council has decided to hold a Valentine dance in the school auditorium.

There is yet one basketball game to be played with the St. Kitts C. I. team and it is expected that the boys team will play defence.

1934 Chevrolet has New Engine and Knee Action Wheels

MANY IMPROVEMENTS

The Chevrolet Six for 1934, with an engine of new design delivering 80 horsepower, with knee-action front wheels, and with increased all-round performance, is considered the most extensively improved annual model since Chevrolet became a Six. The new front wheel springs are enclosed in an oil-filled housing attached rigidly to the frame, making a neat and efficient type of individual suspension. Larger and more luxurious bodies by Fisher, with improved no-draft ventilation, are offered. The picture above shows the Master Six special sedan, and below is seen one of the coupe models.

Recovery Under Way
E. W. Beatty Believes

Reviewing Canadian business conditions of the past year and at the same time looking forward to the prospects for 1934, E. W. Beatty, Chairman and President of the Canadian Pacific Railway, thinks the country is on the way back to prosperity, although the way may be long, and at times difficult. In a statement published in the "Montreal Star" he says:

E. W. Beatty, E.C.

"I think it is perhaps with relief that most of us will say—that's that, and now for 1934. We meet this New Year with something of a better understanding of what this so-called depression is all about and what we ought to do about it. We see along the road leading to its end more clearly and further than we did a year ago. That fact has inspired confidence and courage and has started us moving towards the better times that broadened prosperity will bring to all. The road is not an easy one; there are long hills and difficult spots, but it offers no danger or problem too great to be surmounted by the courage and energy of the Canadian people. We have before us problems that will tax the ingenuity and strength of our leaders in statescraft, finance and industry and make great demands upon the patience and understanding of our people, but if these problems are met with courage and dealt with according to the laws of sound economics which are as relentlessly unchangeable as the laws of nature, this country will emerge from the purging in far better shape to progress than it has ever been before, and individual prosperity for all classes of our people will be more firmly established. I believe that the elusive corner we were hoping to turn through many weary months, slipped past us all unnoticed some time ago, and that we have definitely passed through the worst and most trying phase of the period."

Railroad Situation.

"The past year has been particularly difficult for our railroads and there seems little reason to hope that conditions are going to be much easier for those who operate them in the immediate or near future. Alteration in Canada's status from the position we used to claim as the world's chief producer of breadstuffs has already proved far-reaching in its adverse effect upon our transportation industry. Under most favorable circumstances governing development of other lines of agricultural production for export it may reasonably take some years to bring the volume of Canada's rail freight back to the high figures of a few years ago."

Not Insulated

An electrician returned home from work one night to find his small son waiting for him with his right hand swathed in a bandage.

"Hello, sonny!" he exclaimed.

"Cut your hand?"

The boy shook his head sadly.

"No, dad," he replied. "I picked up a pretty little fly, and one end wasn't insulated."

Here and There

The first event in the celebration of the Centennial of the City of Toronto, to be held this year, took place at the Royal York Hotel in the closing week of 1933 when Mayor Stewart handed out leaves of "Centennial" bread to a large crowd of interested recipients.

Emile St. Godard and Leonhard Seppala, heroes of many hotly fought Dog Derbies, will fight it out again in the Quebec Dog Derby of February 23-25 next to be held in Quebec City. Many other teams have already registered and special training events for the big show are being held.

A tip for the encouragement of the younger ski generation is given by the Canadian Pacific Railway in the company's inauguration of a special school age ski excursion at low rates to the Laurentians just outside Montreal. The special was heavily patronized by the youngsters.

Statistics recently issued by the Bureau of Railway News and Statistics show that the safest way to travel is by railroad. In a year's operation of Canadian and United States railroads only one passenger was killed out of a total of 469,048,529 persons carried a total of 16,941,246,109 miles.

The old belief that women cannot wear high heels without injury to posture and health was described as "bunk" by J. A. Brower, shoe expert of Milwaukee, delegate to the National Shoe Retailers Association convention recently held at the Royal York Hotel, Toronto.

A Canadian inter-collegiate ski meet, unique development in Eastern Canada as far as ski-ing is concerned, will be held at the Seignette Club, Montebello, end of January. Toronto University, Ottawa University, McGill and St. Patrick's College in Ottawa are among the collegiate teams to be represented.

Snow shovels and twenty below in many places in Canada are replaced by machines and 55 above at Victoria B.C., these days where the sixth annual midwinter golf tournament swings into action at the Royal Colwood Course February 19-24. Enquiries and early entries from ardent golfers indicate that again this year the tournament will be a big success.

Silver Fox Breeders' Association convention was the first of three big gatherings held at the Chateau Frontenac Quebec City this year. It was simultaneous with that of the Canadian Fruit and Vegetable Jobbers' Association and was followed shortly after by a convention of the Canadian and Fabrics Association.

Gratification at the way in which the public is using the new rail "shuttle service" between Moose Jaw and Regina was expressed by H. R. Macdonald, general passenger agent, Canadian Pacific Railway Winnipeg when interviewed recently at Regina. He had had ample opportunity to view the running of the new "one-day" train service between the two cities and was very pleased with the results being obtained.
